

Floor Access Grommets

Product shown GTL5C in grey

- Circular raised floor access grommets
- Floor cut-outs of 127mm to 209mm
- LSZH tough ABS plastic body
- Black or Grey options
- Locking clamps

Floor grommets are used as an intermediary to link the sub-floor to the raised office floor. All have adjustable cable openings for tap-off leads and flexible conduits etc. delivering power, data, and multimedia services to the workplace.

Manufactured from a flame-retardant ABS material, with locking clamps and screw down lids for maximum security.

Custom GTL5C are also available in stainless steel and Aluminium for hospital / clean room applications.

Standard Grommets

Code	Floor cut-out	Internal	Overall	Depth
GTL5C B or G	127mm	110mm	140mm	50mm
GT065 Grey only	169mm	160mm	191mm	60mm
GT085 Grey only	209mm	190mm	230mm	45mm

Add B for Black or G for Grey finish for the 5” 127mm.
